

**Task Title : Todo List App**

---

**Task Overview:**

You will develop a simple todo list application that saves tasks, allowing users to view and manage their tasks. The app will include functionalities for adding new tasks, editing existing tasks, and deleting tasks.

Allow users to:

- Add new tasks.
- Edit existing tasks.
- Remove tasks.
- List all task

Store Task Title - ex. Meeting at 9pm

Store Task status - New, In Progress, Completed, Cancelled

When Added the task will be by default in **New** state
